SURROGATE SPOTLIGHT

This month we would like to introduce:

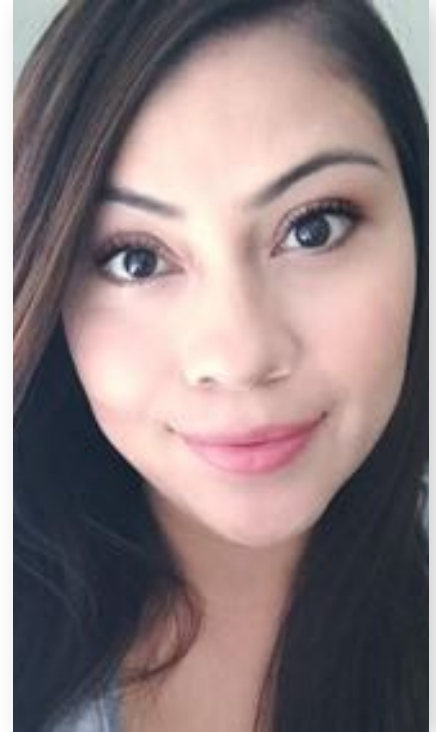

Karla

Knowing how many people struggle with infertility and the desire they have to become parents really sparked my interest in becoming a surrogate. Knowing the kind of joy my kids brought to my life that's what I wanted for others.

I started my first surrogacy journey in 2015, I ended up delivering two healthy boys in July 2016. I developed such a close connection with my IPs which made the experience that much more special. Since I had such an amazing experience the first time I decided to do another surrogacy. Once again Conceptual Options did a great job matching me with another amazing couple. When I was first introduced to my IPs it was through a letter they had written me, as soon as I finished reading it I knew it would be another great journey. Even though the pregnancy was rough at first with extreme morning sickness what got me through it was knowing how excited my IPs were to meet their little girl. Since my IPs were not local we celebrated each milestone and ultrasound through text. Just knowing how happy and excited they were made it that much more rewarding.

I ended my 2nd journey January 2, 2019 delivering a 7.2 lbs baby girl. The moment we as surrogates wait for is the moment our IPs get to meet their baby for the first time. Seeing my IPs hold their baby girl for the first time made my heart fill with so much joy.

I'm thankful that both sets of IPs chose me to be a part of their very special journey to parenthood, both journeys will always hold a very special place in my heart. I want to say thank you to Conceptual Options and my case manager Melanie for the incredible support, these two journeys could not have been possible without you. You guys are truly an amazing agency !
